LINKED – Leveraging Innovation for a Network of Knowledge on Education

- Find answers to the questions practitioners and policy makers are interested in regarding the development of digital competences and games-based learning
- All evidence provided is based on reliable sources including scientific research articles, studies from international organizations, and reports from national specialized agencies
- Find the evidence presented in the format that best suits your needs, ranging from user-friendly detailed or succinct literature reviews to visual presentations and videos.

Evidence on digital competence and games targeted at policy makers and practitioners

<http://linked.eun.org>

About the LINKED project

- The project's global aim is to strengthen the link between research, policy and practice in the area of innovative teaching and learning using ICT, by means of effective brokerage of research results to policy makers and practitioners.
- The project which is responsible for creating the evidence displayed on the LINKED website (<http://linked.eun.org>) runs from February 2010 until April 2011, but the website will be updated and contain valid evidence for use beyond this date.

The LINKED project has been funded with support from the Lifelong Learning Programme of the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.
